1. GENERAL INFORMATION

- All manuscripts must strictly follow the official conference template (Word or LaTeX), which can be downloaded from [the conference website](#) or [here](#).
- Do not alter the margins, layout, headers/footers, or pagination of the template.
- The submitted manuscript must be in its final, complete, and camera-ready form – no further changes will be possible after submission.
- Authors are required to run a spell-check and thorough proofreading before submission.

2. MANUSCRIPT PREPARATION

a. Titles and Authors

- Titles must follow the APA capitalisation style: capitalise nouns, verbs, adjectives, adverbs, pronouns, and all words of four letters or more. Do not use all-uppercase.
- Author names must be written in full (first name + last name). If no last name exists, repeat the first name (e.g., “Abyasa Abyasa”).
- The corresponding author must be marked with an asterisk (*) and a valid email address.
- Affiliations must be complete: department/division, institution, city, country.

b. Abstract and Keywords

- A structured abstract (150–250 words) is mandatory, summarising the purpose, methods, findings, and contributions.
- If references are cited in the abstract, they must be written in full (author, year, title, journal/book, volume, pages).
- Provide at least three (3) keywords, separated by commas.

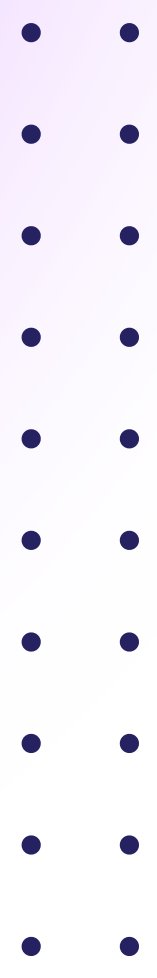

2. MANUSCRIPT PREPARATION

c. Structure of the Paper

- Headings must be numbered hierarchically (e.g., 1, 1.1, 1.1.1). Do not skip heading levels.
- Avoid “orphans” and “widows” (headings without content or a single line at the top/bottom of a page).
- The manuscript should normally contain:
 - 1.Introduction
 - 2.Literature Review / Background
 - 3.Methodology
 - 4.Results and Discussion
 - 5.Conclusion
 - 6.References

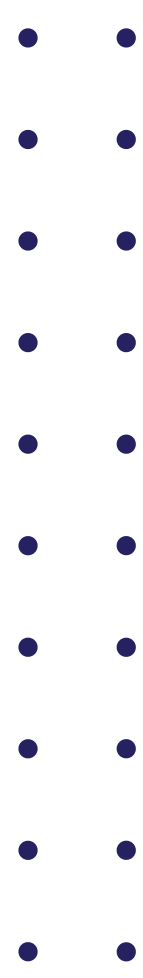

d. Figures, Tables and Lists

- All figures and tables must be numbered consecutively (e.g., Figure 1, Table 1).
- Captions must be placed above tables and below figures.
- Tables must be editable (created in Word or LaTeX), not inserted as images.
- Place figures and tables close to where they are cited in the text.

3. CITATIONS & REFERENCES

- The citation style follows Springer LNCS (citation-order style): references are numbered in square brackets [] according to their first appearance.
 - Example: “This method has been widely applied [1, 2].”
- The reference list must be ordered based on citation sequence, not alphabetically.
- Examples:
 - Journal/Proceedings: [1] Lastname, Initials: “Article Title,” Journal/Proceedings Title, Vol. X, No. Y, pp. a–b, Year.
 - Book: [2] Lastname, Initials: Book Title. Publisher, Year.
 - Website: [3] Organisation: “Page Title,” Year. Available at: URL [Accessed: Date].

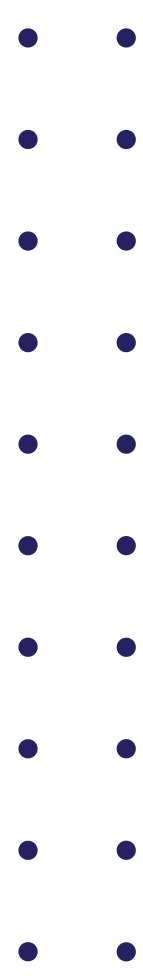

4. ETHICS & PLAGIARISM POLICY

- All submissions will undergo plagiarism screening (Turnitin/Other tools).
- The similarity index must not exceed 20%.
- Authors are fully responsible for ensuring originality and compliance with COPE publishing ethics.

5. SUBMISSION PROCESS

- Manuscripts must be submitted through the official submission system ([ICAME X OJS](#)).
- Only **one final version (camera-ready)** will be accepted.
- Files to be uploaded:
 - Manuscript ([Word/LaTeX](#) source) with macros (docm.)
 - Plagiarism screening score (PDF) via Turnitin or other tools

6. IMPORTANT NOTES
